-- The MAILING DATE of this communication appears on the cover sheet with th correspondenc address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1-15 have previously been cancelled. The active claims are 16-38 of which claims 16, 18, 20, 23, 26, 30, 32, 35 and 37 are independent claims.

In view of the Terminal Disclaimer filed on 11/30/2005, the previous obviousness-type double patenting rejection of claims 16-19, 26-29 and 35-38 has been withdrawn in the Office action mailed 2/22/2006.

Claims 16-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to independent claims 16, 18, 26, 35 and 37, it appears that it is the memory and not identifiers are divided into subfields.

With respect to independent claims 20, 23, 30 and 32, it is not clear to what memory the faster memory and the slower memory are referring or comparing.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 16-19, 26-29 and 35-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tedesco (UCP 6,421,651).

Details of the rejection have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

In the communication filed on 5/2/2006, Applicants agrees that a working copy is stored in non-volatile memory to prevent loss of data in the event of a power interruption. Applicants contend that is not what is being claimed. Applicants state that what is being claimed is dividing a unique identifier into subfields and storing a portion

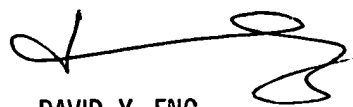

of the identifier in a different memory. The Examiner disagrees. The rejected claims clearly recite all the divided subfields are stored in volatile memory and a copy thereof is stored in non-volatile memory. See claim 16 for example.

The statutory double patenting rejection of claims 20-25 and 30-34 have been withdrawn because the claims recite memories of different speed and not different type. Claims 20-25 and 30-34 would be given favorable consideration if the Section 112 Rejection is overcome.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID Y. ENG whose telephone number is 571-272-3984. The examiner can normally be reached on M-F from 8AM to 3PM.
